

OnPure

NUTRITION

DESIGNED FOR YOUR FIGHT

Our Story

- ▶ Our physician founder was troubled by the high sugar and low protein bottled brands available to patients.
- ▶ OnPure was started to give you, a trusted and great tasting protein
- ▶ We believe people deserve the highest quality nutrition in their daily fight to stay strong and healthy.

Our Founder

- ▶ Dr. Avitia recognizes that staying healthy is a combination of diet, exercise, spiritual wellbeing and modern medicine.
- ▶ As a cancer specialist, he sees the importance of diet in fighting for better health. He believes that better nutrition leads to better living.

Our Product

What is Whey Protein?

- ▶ Whey protein is one of the primary proteins found in dairy products. A byproduct of the cheese-making process, whey protein provides substantial amounts of the essential amino acids that are needed to carry out the functions that proteins perform in the body.
- ▶ People commonly take whey protein to improve athletic performance and address nutritional deficiencies or problems.

OnPure Formulation

- ▶ The OnPure formulation was created with the everyday fighter in mind.
- ▶ Clean, simple, and delicious with 26 grams of Non-GMO, gluten free whey protein that supplies the essential amino acids that the body needs.
- ▶ NO SUGAR ADDED, NO SOY, NO ARTIFICIAL FLAVORS are added to our products.

Our Vision

We can do better, with simple and clean ingredients

INGREDIENTS:

Whey Protein Concentrate, Cocoa processed with alkali, Natural Flavors, Sunflower Lecithin, Xanthan Gum, Salt, Rebaudioside A, Monk Fruit Extract, Contains Milk.

Ingredients [-]

Water, Corn Maltodextrin, Sugar, Canola Oil, Sodium Caseinate, Milk Protein Concentrate, Corn Oil, Short-Chain Fructooligosaccharides, Soy Protein Isolate, Calcium Beta-Hydroxy-Beta-Methylbutyrate. Less than 0.5% of the Following: Potassium Citrate, Whey Protein Concentrate, Natural & Artificial Flavor, Magnesium Phosphate, Soy Lecithin, Sodium Phosphate, Potassium Phosphate, Choline Chloride, Ascorbic Acid, Calcium Carbonate, L-Carnitine, Carrageenan, Ferrous Sulfate, dl-Alpha-Tocopheryl Acetate, Zinc Sulfate, Gellan Gum, Niacinamide, Manganese Sulfate, Calcium Pantothenate, Cupric Sulfate, Vitamin A Palmitate, Thiamine Chloride Hydrochloride, Pyridoxine Hydrochloride, Riboflavin, Folic Acid, Chromium Chloride, Biotin, Sodium Molybdate, Sodium Selenate, Potassium Iodide, Phylloquinone, Vitamin D3, and Cyanocobalamin.

Contains milk and soy ingredients.

The Leading Brands

- More Added Sugars
- Overwhelming choices and confusion
- Higher cost

Ingredients [-]

Water, Corn Maltodextrin, Sugar, Canola Oil, Sodium Caseinate, Milk Protein Concentrate, Corn Oil, Short-Chain Fructooligosaccharides, Soy Protein Isolate, Calcium Beta-Hydroxy-Beta-Methylbutyrate. Contains milk and soy ingredients.

More Protein, less sugar, more value!

Comparison			
Brand	Protein	Sugar	Cost per Serving
OnPure	26 grams	1 gram	\$1.13
Bottled brand/+	9/20 grams	15/20grams	\$1.33/2.00
Other Powders	22 grams	6 grams	\$2.00
Plant based	16 grams	1 gram	\$1.89

Safety in every pack

- ▶ Safety and quality testing ensures you receive the best.
 - ▶ Tested for Coliforms, Ecoli, Salmonella, Staphylococcus Aureus, Yeast and Mold
 - ▶ Tested for Lead, Arsenic, Mercury and Cadmium

Possible Drug Interactions

- ▶ **Levodopa.** Might decrease the effectiveness of levodopa. Do not take whey protein and levodopa at the same time.
- ▶ **Albendazole (Albenza).** Avoid using whey protein if you are taking this parasite-killing drug. The supplement might delay or hinder the drug's effects.
- ▶ **Alendronate (Fosamax).** Use of whey protein with this drug used to prevent or treat osteoporosis might decrease absorption of the drug.
- ▶ **Certain antibiotics.** Use of whey protein with quinolone or tetracycline antibiotics might decrease your absorption of the drug.

Other Possible Side Effects

- ▶ Don't use whey protein if you have an allergy or sensitivity to dairy products.
- ▶ If you are lactose intolerant or have sensitivity to milk it may cause digestive distress. Increased bowel movement, nausea, bloating, cramps.

- ▶ A balanced diet which includes protein, fruits, vegetables and whole grains are essential for good health.
- ▶ The best source of protein is from whole foods: nuts, seeds, dairy products (yogurt, milk, cheese), legumes (beans, lentils), fish, poultry, eggs, and lean meat.
- ▶ However, we recognize some populations have difficulty eating or an impaired appetite.
- ▶ OnPure Protein should be used as a food supplement. Not to be used as sole source of nutrition.

Our Promise, Our Guarantee:

We recognize the financial stress of staying healthy. We guarantee that you will be satisfied with the quality, taste of our product or your money back.
