

Biosimilar Education Resources Available from Pfizer

As a partner of choice, Pfizer has developed a robust portfolio of informative resources, including educational materials, videos and speaker programs for healthcare professionals, patients and beyond. Look inside to learn more.

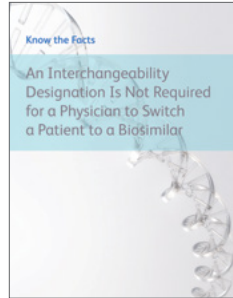

Biosimilar Resources for Healthcare Professionals

Clinical and scientific topics related to biosimilars, intended for healthcare professionals.

Important Facts Healthcare Professionals Should Know About Biosimilars*

A brochure outlining important information about biosimilars, including analytical and clinical development, extrapolation, and interchangeability

Know the Facts: An Interchangeability Designation Is Not Required for a Physician to Switch a Patient to a Biosimilar*

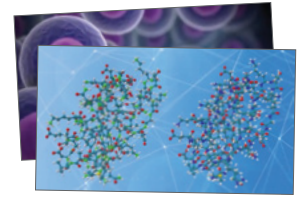

A one-sheet overview providing key facts on the US FDA interchangeability designation

Biosimilars Technical Concepts Video Series

A series of short videos focusing on the following topics:

- The basics of biosimilars and their approval process
- How biosimilars are evaluated based on the totality of evidence
- Comparative clinical studies and the role they play in the approval of biosimilars
- The principle of extrapolation
- The role that immunogenicity plays in the approval of biosimilars

Biosimilars Manufacturing Video

A short video that provides information about Pfizer's process for manufacturing biosimilars. Available on PfizerBiosimilars.com

*Available from your Pfizer Biosimilars representative and on PfizerBiosimilars.com

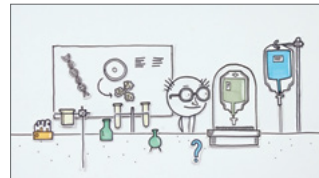

Biosimilar Resources for the Patient Conversation

Educational information about biosimilars, developed especially for patient audiences.

Biosimilars: An Introduction for Patients

A brochure for HCPs to provide to their patients outlining helpful information about biosimilars. Available from your Pfizer Biosimilars representative and on PfizerBiosimilars.com

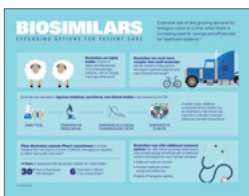

Biosimilars Patient Video

A short video intended to share with patients, providing information about how biosimilars are made, and why they can make a difference. Available on PfizerBiosimilars.com

Biosimilar Resources for General Audiences

Information intended for anyone seeking to learn more about biosimilars and Pfizer's commitment to developing them.

Expanding Options for Patient Care

An infographic that provides a high-level, low-complexity overview of biosimilars. Available from your Pfizer Biosimilars representative and on PfizerBiosimilars.com

Biosimilars in the US Healthcare Landscape

A slide deck providing information about key concepts related to biosimilars, intended to serve a wide range of audiences seeking introductory education on the topic. Available on PfizerBiosimilars.com

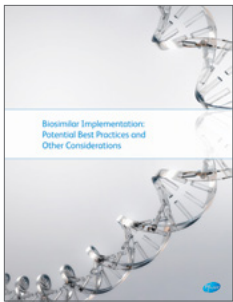

Bringing Pfizer's Legacy in Oncology to Biosimilars

A brochure providing information about Pfizer's legacy in oncology and commitment to biosimilar development. Available from your Pfizer Biosimilars representative and on PfizerBiosimilars.com

Biosimilar Implementation Resources for Pharmacy and Health Information Technology (HIT)*

Resources developed in collaboration with implementation experts to share emerging best demonstrated practices in operational enablement, IT, monitoring, education and communication, intended for pharmacists and IT/admin professionals.

Biosimilar Implementation: Potential Best Practices and Other Considerations

A brochure providing potential best practices and other considerations for biosimilar implementation

Instructions to Identify Patient Insurance Coverage in the EPIC EHR system

Guidance on how to identify patient insurance coverage in the EPIC Electronic Health Record (EHR) system

Instructions to Identify Patient Insurance Coverage in the CERNER EHR system

Guidance on how to identify patient insurance coverage in the CERNER EHR system

Creating a Path to Successful Biosimilar Implementation

A document outlining potential steps that can be taken toward successful biosimilar implementation

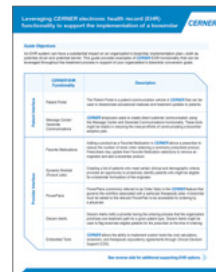

MEDITECH EHR Tip Sheet

Best practices for leveraging MEDITECH EHR functionality to support biosimilar implementation

Epic EHR Tip Sheet

Best practices for leveraging EPIC EHR functionality to support biosimilar implementation

CERNER EHR Tip Sheet

Best practices for leveraging CERNER EHR functionality to support biosimilar implementation

*All biosimilar implementation resources are available from your Pfizer Biosimilars representative and on PfizerBiosimilars.com

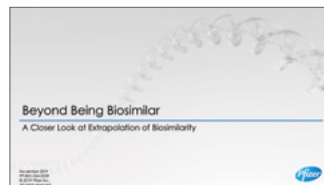

Biosimilar Speaker Programs

Peer-to-peer speaker program presentations that cover key topics on biosimilars, intended to help assist healthcare professionals considering biosimilars for their practice or institution. All programs can be delivered live or virtually.

Biosimilars: An Overview for Healthcare Professionals

Provides a foundational understanding of the rationale for biosimilars and scientific and clinical considerations for licensure by the FDA

Beyond Being Biosimilar: A Closer Look at Extrapolation of Biosimilarity

Provides an in-depth understanding of extrapolation in relation to biosimilars

Biosimilar Implementation: Potential Best Practices and Other Considerations

A resource to learn about potential best practices and other considerations for biosimilar implementation. Provides an overview of essential considerations when evaluating biosimilars for formulary inclusion and their implementation at the institution or practice

Contact your Pfizer Biosimilars representative for more information about upcoming speaker programs.

Pfizer Support Resources for Your Oncology Patients

THIS IS LIVING WITH CANCER™

This Is Living With Cancer™ is a program designed for those who have been affected by cancer and those who love them. This program is available to anyone in the United States, regardless of tumor type or stage of disease, whether they are currently on a Pfizer Oncology treatment or not. Learn more at [ThisIsLivingWithCancer.com](https://www.thisislivingwithcancer.com).

LivingWith™ is a free app developed by Pfizer Oncology, designed to help patients and caregivers manage life with cancer. Designed to help people connect with loved ones, ask for the help they need, remember important information from doctors' visits and stay organized, all in one place. **LivingWith™** is available in English and Spanish. Download **LivingWith™** for free. Visit [ThisIsLivingWithCancer.com](https://www.thisislivingwithcancer.com) to learn more.

App Store is a service mark of Apple Inc., registered in the U.S. and other countries. Google Play and the Google Play logo are trademarks of Google LLC.

Pfizer Oncology together™

At Pfizer Oncology Together™, patient support is at the core of everything we do. From helping to identify financial assistance options to connecting patients to resources for emotional support, your patients' needs are our priority. Visit [PfizerOncologyTogether.com](https://www.pfizeroncologytogether.com) to learn more.
